

INSTALLATION INFORMATION FOR STARTER SOLENOID PART NUMBERS 40111 (ZINC) AND 40111-C (CHROME)

The ACCEL starter solenoid is designed to replace OEM No. 71469-65B and fits the following Harley-Davidson Applications:

Year	Model
1967-1978	XLH, XLCR, XLT
1979-1980	XL Models
1965-1984	FL, FLH (EX. FLT)
1971-1985	All 4 Speed FX Models
1984-1988	FXST, C, S; FLST, C
1980-1986	FXWG

The ACCEL solenoid unit is manufactured of the highest quality standards and is subjected to repeated tests during production to insure long service life.

When installing the ACCEL unit, disconnect the battery and be sure to correctly reconnect all leads. If you are unsure of the proper connections, consult the specific service manual pertaining to your year and model for the correct wiring diagram.

Insist on ACCEL high performance Fuel, Charging, Brake, Starting Lubrication & Ignition system components for all your replacement needs.
